

What's So Good About ADD ?

Glad you asked! Lots!!! -----

- We're sooo creative and imaginative.
- We're really good at seeing the whole picture/process.
- Some are very energetic, spontaneous, and quick decision makers.
- We're quite intuitive.
- We are compassionate, sensitive, and, oh so passionate!
- Some of us are real quick thinkers, and we're all very bright.
- Our hyper-focusing helps us become experts (in our obsessions).
- We're flexible and can make "mental leaps" easily.
- We see inter-relationships and solve problems where others cannot.
- We'll try new things and take risks, when others won't.
- Our exuberant enthusiasm can be contagious!
- We're the consummate entrepreneurs.
- We love having "many irons in the fire" (multi-taskers).
- We're fiercely loyal.
- Some of us are vivacious and very outgoing.
- Some of us are more reserved and quiet.
- Our sense of humor is unique and fun!

So...We have a lot to offer...THE WORLD NEEDS US !!!
